Eligibility for VA health care is dependent upon a number of variables, which may influence the final determination of the services for which you qualify. These factors include the nature of a veteran's discharge from military service (e.g., honorable, other than honorable, dishonorable), length of service, VA adjudicated disabilities (commonly referred to as service-connected disabilities), income level, and available VA resources among others.

Generally, you must be enrolled in VA health care system to receive benefits offered in the Medical Benefits Package. To apply for VA health care benefits, including enrollment you must fill out an application. We use the application to determine:

- Whether you have qualifying service as a veteran
- What your veteran status is so that you can be placed into one of the priority groups

Enrollment Restriction

Effective January 17, 2003, VA suspended NEW enrollment of veterans assigned to Priority Group 8e and 8g (VA's lowest priority group consisting of higher income veterans). Veterans assigned to Priority Group 8e and 8g are veterans who are enrolling for the first time on or after January 17, 2003,

and whose income exceeds the current year income threshold, who have no other special eligibilities such as a compensable service connected condition or recent combat service, and who refuse to provide income information are **not** eligible for enrollment at this time. Veterans enrolled in Priority Group 8a and 8c on or before January 16, 2003, will remain enrolled and continue to be eligible for the full-range of VA health care benefits.
